**Teacher!Teacher!! Announces Build & Win PaperPaperTown Schools Contest
For Primary Schools In Lagos State**

Teacher!Teacher!!, has announced a fresh contest for the new 2022/2023 school year for primary schools (both public and private schools) in Lagos State using the Company's construction kit called 'PaperPaperTown'.

Through the Build & Win PaperPaperTown Schools' Contest, which runs for thirteen weeks, starting September 5th, 2022 to December 5th, 2022, primary school students (grades three to

six) in Lagos State will learn through a real-life architectural and engineering problem and proffer hands-on solutions using Engineering Design Process.

With ten thousand naira (N10,000) for each bumper kit, which is sold only through schools, many Nigerian children will be empowered with skills that make them future-ready. From game design, scientific method, and architecture to storytelling, the twelve (12) skills learned through the PaperPaperTown Kit go beyond the competition. Also, Nigerian teachers are empowered to teach 21st Century problem-solving skills through the Teacher's Kit that comes with the Student's Kit.

The Contest has a total prize money of two million naira (N2,000,000) to be shared amongst three winners (1st Prize N1,000,000; 2nd Prize N750,000 and 3rd Prize N250,000).

See www.teacherteacher.com.ng for more information on the PaperPaperTown Kit and building contest.
