**Teacher!Teacher!! Announces Build & Win PaperPaperTown Schools Contest
For Primary Schools In Lagos State**

This new school term, Teacher!Teacher!!, has announced its creative contest for schools in Lagos State using the Company's construction kit called 'PaperPaperTown'.

Through the Contest, which runs for eleven weeks starting April 25th, 2022 to July 15th, 2022, primary school students (grades three to six) in Lagos State will learn through a real-life

architectural and engineering problem and proffer creative solutions using the Engineering Design Process.

With five thousand naira (N5,000) for each bumper kit, which is sold only through schools, many Nigerian children will be empowered with skills that make them future-ready. From game design, scientific method, and architecture to storytelling, the skills learned through the PaperPaperTown Kit goes beyond the competition. Also, Nigerian teachers are empowered to teach 21st Century problem-solving skills through the Teacher's Kit that comes with the Student's Kit.

The Contest has a prize money of two million naira (N2,000,000) that would be given to the winner. To date, forty-four (44) schools in Lagos State have already indicated their desire to participate.

See www.teacherteacher.com.ng for more information on the Contest.
